

Each bathroom was constructed using Marriott-approved and specified products per the client's request. There is a hot and cold water hookup on top of the unit, and there's also an electrical connection. The pods were delivered to the job site with all the finishes and fixtures preinstalled.

When it comes to construction, time is money. When it comes to compressing production schedules without sacrificing quality, prefabricated bathroom pods are a perfect choice.

Download Our "Top Ten Advantages Of Pre-Fab BIM" Infographic! (<http://info.buildingsolutions.com/top-ten-advantages-of-pre-fab-bim-download>) With our infographic, you'll understand the primary benefits of adding BIM to your Pre-Fab development process. And, you'll have it as a handy reference.
